1.0 Introduction

Synergic experience, like-minded thinking and common vision of “Outreaching Professional Skills for Positive Contribution in the Development Sphere and Enhancing Skills of Youth”, motivated a group of professional colleagues and university mates, to organize a self-sustainable engineering firm with the name of **PROGEN Services** in October 2022.

Currently PROGEN Services is a recognized and qualified Engineering Consulting Firm, registered with Pakistan Engineering Council under Registration No. **CONSULT/2482** and offers a broad range of professional, technical and specialized Civil, Electrical and Architectural services. It has organized a qualified team of planners, designers, construction and technical advisors having skills in planning and development of all type infrastructure comprising but not limited to rural and urban roads, drains, housing, commercial and industrial buildings along with community social infrastructure development.

The strategic goal is to make a positive difference in the development circle to contribute in the global Sustainable Development Goals (SDGs) 2030) and Pakistan 2025 one Nation.

Concerning SDGs our main goal is also community development to involve all the stake holders in line, to up standards community livelihood in all components of SDG.

One Vision through offering innovative technical solutions to both the public and private development sectors, communities and national and international donor organizations in Pakistan.

PROGEN Services claims that clients would be desirous to work with it, the primary being offering sustainable solutions to address their strategic and operational challenges in a more professional, qualitative, quantitative and cost-effective manner.

The cumulative breadth of experience of the professionals associated with PROGEN is over 25 years, which encourages PROGEN to take on more complex and challenging projects and ensure the client’s trust by exercising continuity, efficiency and transparency.

So, our value is that we are committed to the sustainability of communities, our clients businesses and the environments in which we live and work.

Vision and Goal:

“Provide quality services through fostering loyal relationships, clear communication and creative solutions within our unique work environment while achieving personal and community growth; to be the recognized leader in creating desirable communities, while leaving a legacy of excellence”

Mission Statement:

“To provide comprehensive design, engineering solutions and ensuring excellence to efficiently deliver high quality service and value to our clients”

Aims/Objectives

- To provide accurate and cost effective engineering solutions
- To embrace and uphold high integrity and ethical practice
- To nurture and retain high caliber of human resources. **“Embracing Technology Solutions for any Project”**

Our Services

PROGEN Services offers its expertise in almost all the engineering and development sector. Based on experts' experience over multiple countries, PROGEN has achievement certification to offer its services in following Sectors:

Buildings

Residential Building & Houses, Hospitals, medical facilities, laboratories, medical research, Educational facilities & complexes

Sports & Recreation:

Stadium, Parks & Recreational Facilities

Urban & Real Estate Development

Urban Utilities:

Water Supply, Sewage Network, Treatment plants, Water Transmission Lines

Irrigation System & Hydraulic Structures

Dams & Reservoirs

Hydro Electric Power Stations

Rural Development and Social infrastructure.

Landscaping and Horticulture.

Surveying, valuation and loss assessment.

Highway, Bridges and Tunnels

In the above-mentioned Sectors, PROGEN has the capability and certification to undertake following services:

SURVEYS:

- Hydrological Survey.
- Soil Survey & Investigation
- Topographic Survey

STUDIES:

- Planning Study
- Feasibility Study
- Technical & Implementation Study

DESIGN & ENGINEERING:

- Engineering & Urban Design
- Foundation & Earthquake
- Design Reviews

PROJECT MANAGEMENT:

- PMCM on Behalf of Clients.
- Estimation & Bid Preparation

CONTRACTS & COMMERCIAL

- Value Engineering
- Forensic Analysis
- Delay & Disruption Claims
- Mediation & Arbitration

TENDER ADVISORY SERVICES

- Pre-Contract Risk Analysis
- Preparation of Technical Bids
- Site Surveys on behalf of Clients

TECHNICAL & ADVISORY SERVICES

SOCIAL DEVELOPMENT

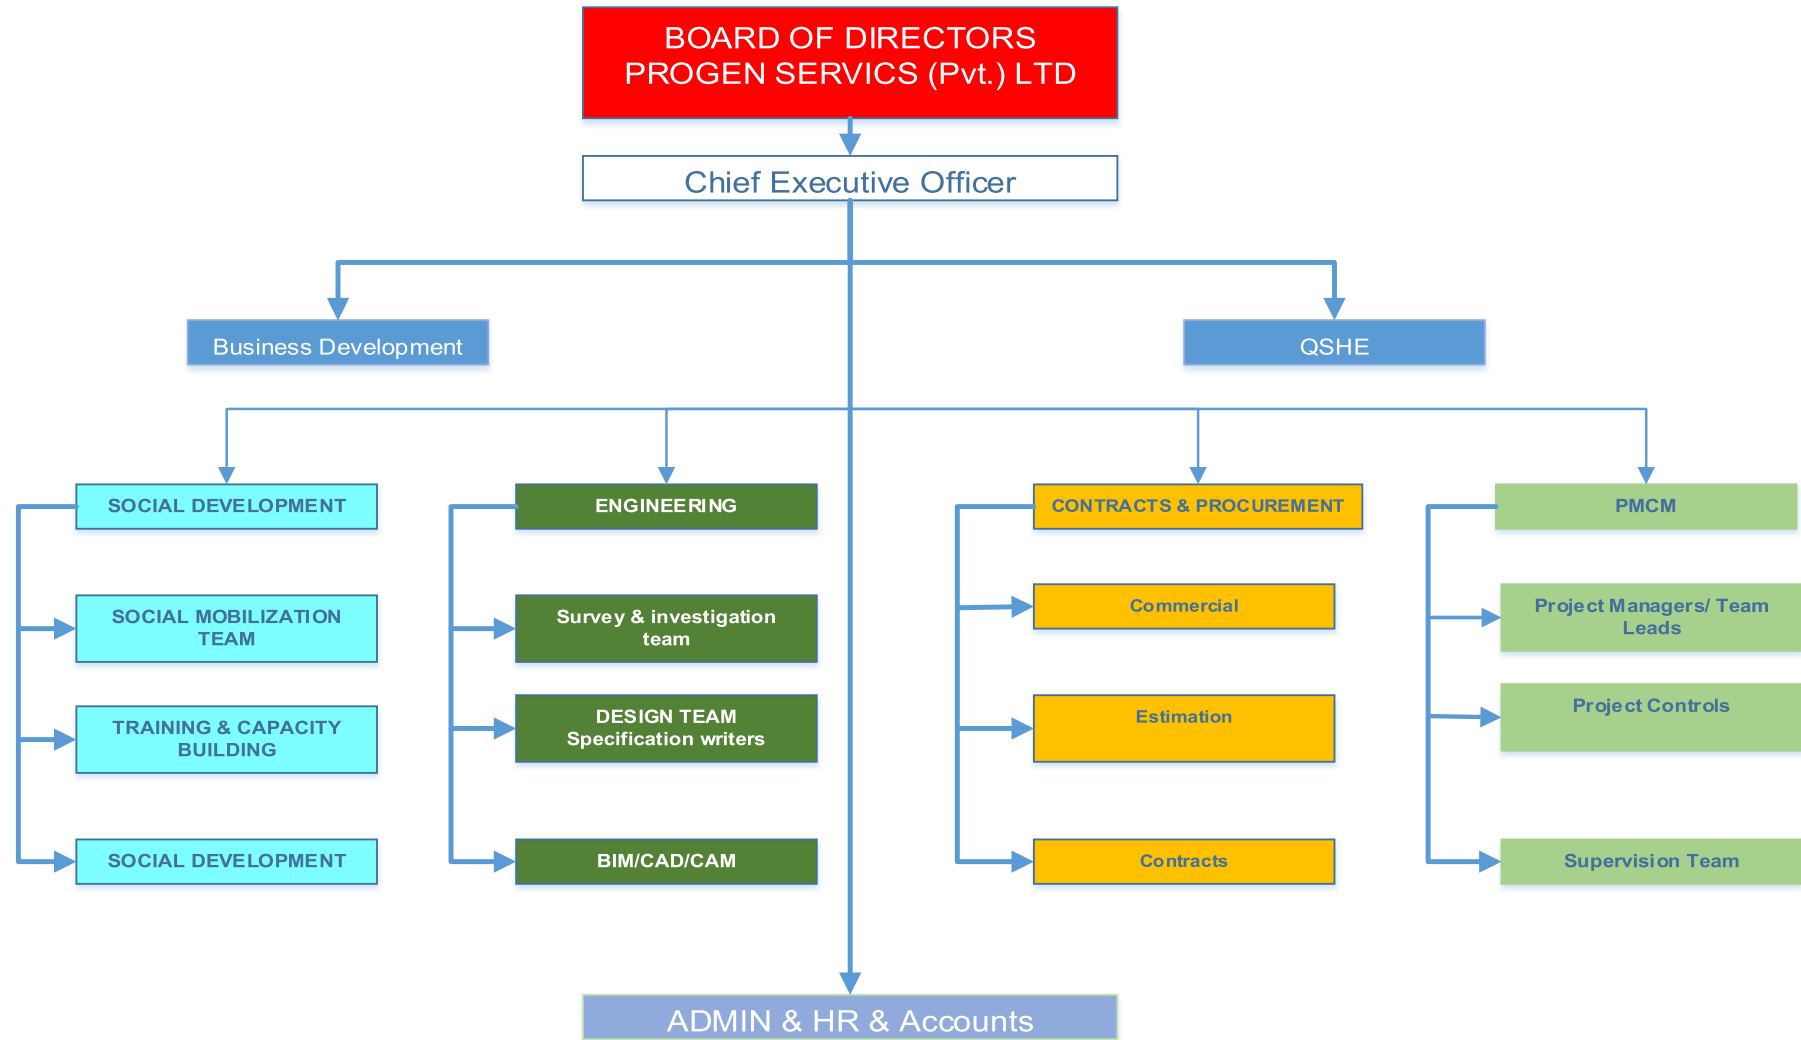

ENVIRONMENTAL TEAM

We aim to set a standard of excellence, offering proven capabilities in all areas of infrastructure design, development and management. Our responsive communication and commitment to personal service has fostered our ability to maintain an ever-increasing list of repeat clients.

2.0 Organization

We aim to design, implement and building services to complement our wide range of construction and consultancy services. Delivering end-to-end building and civil engineering services across every major sector, our design team incorporates Architectural, Structural, Mechanical, Civil and Electrical engineers. Thus the managing team of PROGEN SERVICES have been gleaned from the best of the country's considerable skills in Civil, Mechanical, Electrical Engineering, Architectural Planning & Design, Financial & Construction Management and have brought along cumulative development experience of more than 25 years as elaborated below;

Organizational Matrix

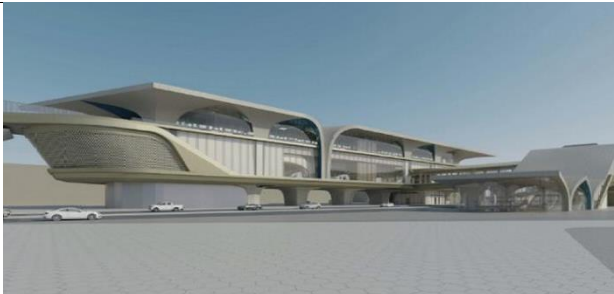

Location / Addresses;

PROGEN Services operates from its Office located in House: 59, Street: 21, Sector: A3, Zone:04, Regi Model Town Peshawar, KP, Pakistan.

PROGEN has existence in Islamabad and Karachi.

Cumulative Work Experience/Overview

A mature and ethical professional with around 17 years of diversified experience in development, strong conceptual and analytical skills and demonstrated ability to work effectively in a multilingual, multicultural environment both in public and private sectors. I have worked extensively in different development Projects throughout Pakistan aimed to strengthen governments (at all three level) and civil society organizations through capacity building Programs for improving organizational governance with a special focus on financial administration, transparency and responsibility.

My association both in public and private sector spanning over more than 17 years has provided me ample opportunities to understand the dynamics of Organizational governance, its importance in scheme of things and issues hampering efficient and effective service deliveries and responsive governance, in addition to Training Needs Assessment (TNA) ,designing and monitoring of capacity building program .Responsible for defining and developing the strategies which underpin a company's CSR objectives. They conduct research, come up with ideas, develop policies, create detailed plans, build relationships with partner organizations, and then implement and coordinate a range of activities and initiatives, which are designed to have a positive impact on the environment and local communities. In all these programs with Public, international and National development organizations – Local Government Secretariat, People in Need, Action against Hunger, National Rural Support Program, and FATA Secretariat have given me the opportunity to work for the betterment of society. Also being national of a developing country, I have better comprehension and appreciation of the challenges developing countries are facing like sustainable development issues, In FATA Secretariat especially as Focal Person for World Bank (Economic Revitalization and Rural Livelihood Projects) reinforced my understanding of governance issues which has resulted in the ongoing insurgency in FATA (NMDS) /KP.

Employment Record
